My Arabic Numbers Workbook

Part 1
Arabic Numbers 1-10

Written and Illustrated
by
Rahmah Ibrahim

If your child can count from 1-10 in English, this workbook will help to introduce numbers in Arabic language.

How to use this workbook

Ask your child to say the number in English and Arabic as your child traces it.

Help your child as needed and praise your child at the completion of each worksheet.

Set the number of pages your child will complete in a day or do the practice for fifteen minutes only. The idea is to end it when your child still wants to do more.

Although Arabic script is written from right to left (opposite to English) but their numbers are written from left to right (just like English) i.e. number ten ١٠=10.

Please encourage your child to write her/his name.

Practice makes perfect!
